EXPERIENCE

Thesis about data validation

📅 January 2023 – Present 📍 Kalmar, Sweden

- Working together with Kalmar Energi to create a solution for their validation of data that gets flagged with errors. Machine learning algorithm and data handling primarily.

Project with Embedded System

📅 January 2023 – Present 📍 Kalmar, Sweden

- Working on a project to detect gunfire in risk areas and localization of the gunfire. Using triangulation and machine learning together with an RTOS system.

Contributor for KalmarKodKollektivet

📅 November 2022 – Present 📍 Kalmar, Sweden

- We are creating a website for a gym company in the city. My part has been working around the design team and come up with the front end code to suit their designs. - <https://kalmarak.se/>

Store Clerk

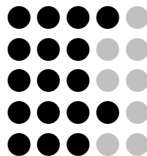

Coop

📅 June 2014 – December 2022 📍 Färjestaden, Sweden

- Standard clerk job, working with customers and stocking shelves. Mostly alot of customer contact and creating a good environment.

SKILLS

Java
Python
HTML CSS
Javascript / Typescript
MySQL

EDUCATION

B.Sc Computer Science and Engineering

Linnaeus University, Campus Kalmar

📅 August 2020 – Present

Varied courses (math / chemistry)

Luleå Tekniska Universitet, Lunds Universitet

📅 August 2017 – August 2019

INTERESTS

Technical

- Big interest in big data and optimization.
- Psychology

Hobbies

- Gaming.
- Learning about a wide area of subjects.
- Food.
